🇨🇱 DNI: 15.557.610-3 🇨🇱 chilean 🕒 39 years old 📍 Jorge Kenrick #989-55, Valparaíso, Chile

Summary

Computer Engineer coding enthusiast and in constantly new learning and technologies adoptions, with extensive experience in the design and implementations of digital products in vast and middle scale. Currently, I have the role of Senior Software Architect, I also do teaching work allowing to deliver my knowledge and experiences to future professionals. I consider myself a person who watches over good relationships personally, is trained to deliver knowledge, is proactive, and is always available to support my coworkers.

Work Experience

- 2021 - currently

Application Architect, Liberty Mutual Insurance, Andes Region.
 - Architecting high volume web systems and large transaction client-server systems using serverless and/or containers architecture.
 - PoCs Implementation to coordinate solutions or facilitate evaluation as necessary.
 - Technical Lead and product owner in architecting and software development projects, constantly supporting and delivering knowledge to teams.
 - FullStack and coding enthusiast with JS, REST services, and Microservices.
 - Training and continuous help to developers in the knowledge of technology and resolution of coding problems.
 - Roadmap management of architecture projects.

AWS

Java

python

Spring framework

git

React

microservices

serverless

containers
- 2021 - currently

Support Researcher (part time), Universidad de Valparaíso, Fondef MAMAI
 - Implementation of techniques for natural language processing. (NLP).
 - Research and implementation of NER and text generators models based on deep learning and transformers models.

IA

Deep Learning

BERT

GPT-2

python 3.9

spaCy 3.0

pytorch

keras

tensorflow

scikit learn

AWS Sagemaker
- 2016 - 2021

Software Architect, Nationals Customs Service, Government of Chile .
 - Migration project to the public cloud using serverless and container architectures.
 - Design and implementation of rest APIs as part of an event-driven architecture.
 - Definition of strategy for efficient migration of applications to the cloud.
 - Design of architectures for the development of projects of the government of Chile.
 - Definition of architectural guidelines and building blocks for support software development projects.
 - Implementation of archetypes of applications, services, and processes for agile development.
 - Training and continuous help to developers in the knowledge of technology and resolution of coding problems.
 - Portfolio management of architecture projects.

AWS

Java

Apache Camel

Spring framework

git

Angular

REST

OpenShift

JBoss EAP

microservices

containers

Kubernetes
- 2012 - 2016

Software Architect, Emergya, Consulting.
 - Design and implementation of archetype for software development.
 - Implementation of component architectures.
 - JBoss ESB-based Components Implementation.
 - Research and adoption of new technologies for continuous improvement of development processes.
 - Technical support to areas of development and operations in projects and contingencies.
 - Definition of architectural guidelines and standards for project and component development.
 - Execution of code audits for projects in development stage.

JBoss EAP

JBoss SOA-P

JSF

RichFaces

Eclipse IDE

Hibernate

Alfresco

- 2010 - 2012 | **Software engineer, Universidad de Valparaíso, Chile.**
- Technical leader of projects in the area of education, using Java J2EE technology with ICEfaces and EJB frameworks.
 - Design and implementation of high availability production environment.
 - Design and implementation of student portal.
 - Design and implementation of base architecture for new development projects.
- Glassfish Ms Sql Server Java iceFaces MyBatis
- 2009 - 2010 | **Software engineer Java, Tecnova, Chile**
- Project development for Java and Php telecommunications industry.
 - Evolutionary maintenance project for a life insurance company operations platform.
 - Geolocation project to record bandwidth measurements of BAM plans.
 - Development of measurement query application for help desk platform.
 - Design and implementation of a web application to record the activities of insurance agents using JSF.
- Eclipse Java JSP JSF ADFaces Oracle Php jquery Visual Basic
- 2008 - 2009 | **Data integration consultant, Power Data, Chile**
- Implementation of ETL processes in the Retail industry client.
 - Design and implementation of ETL process for mapping transactions from Cobol to relational database.
- PowerCenter Cobol DB2 TeraData
- 2008 | **Developer, DyBox, Chile**
- Support for Java JEE application development.
- ADFFaces EJB 2.1 TopLink OC4J.

Teaching

- 2010-2019 | **University teacher, subjects related to software design and programming for careers in the area of computer science, part time.**
- Universidad de Valparaíso - Faculty of Engineering.
 - Universidad de Viña del Mar - School of Technology.

Education

- 2021 | **Diploma Cloud Computing Architecture** - Kibernet Academy, Chile
- 2020 | **PhD Candidate - Computer engineering (in progress)** - Universidad de Valparaíso, Chile
- 2009 | **Computer Engineering** - Universidad de Valparaíso, Chile
- 2009 | **Degree in Computer Science** - Universidad de Valparaíso, Chile

Certifications.

- 2021 | **AWS Certified Cloud Practitioner** - AWS, ID GF1B73BDEB1QQY39
- 2018 | **Analyst developer of software applications (TIC-PROG)** - ISFIA, ID a02785f4-7a11-4f20-9f29-890b52299a08
- 2014 | **ITIL v3 Foundation Certificate in IT Service Management** - EXIN, ID 5158119.20318946

Competencies.

Programming languages:	Java, Python, Php , JS, C, DotNet-Core, TeX .
Cloud Technologies:	AWS , Azure, Containers , Kubernetes , OpenShift.
Frameworks:	Spring Framework , camel , Angular , React, Hibernate , MyBatis , JSF (Primefaces, RichFaces, iceFaces) ,
Data Base:	Oracle , MySQL , PostgreSQL , Ms SQL Server
Development Tools:	Eclipse , NetBeans, IntelliJ Idea, Maven, Ant, git, SVN
Middleware:	JBoss EAP , JBoss SOA-P, Fuse, Tomcat , Glassfish
Software design tools:	UML, Archi, Enterprise Architect.
Machine learning tools:	python sklearn , Keras , tensor flow , Textblob, sapCy.
CI/CD tools:	Jenkins , Sonar, Jmeter, Talend, Power Center.
Others skills:	Clean code, Refactoring and Design and Enterprise Intergration Patterns .

Training courses

2021	Cloud Practitioner Essential Day. AWS
2021	Dev on agnostic cloud. Data Activa
2020	Application Development II: Implementing Microservice Architectures (DO283). Red Hat
2020	Application Development I: Programming in Java EE (AD183). Red Hat
2020	Introduction to Openshift Applications I (DO101). Red Hat
2018	Jboss Fuse - camel (JB421). Red Hat
2018	Jboss Enterprise Application Development (JB225). Red Hat
2017	Jboss Enterprise Application Development II (JB325). Red Hat
2016	Jboss Development with Hibernate Technology (JB297). Red Hat
2016	Jboss Enterprise Application Development (JB225). Red Hat
2015	Collaborative skills for the change (couching). LW Capacitaciones
2014	ITIL v3 Foundation Certificate in IT Service Management. Axelos
